

Acknowledgment

I would like to extend my sincere gratitude to CSism Technologies for providing me with the opportunity to intern with your esteemed organization. During my internship, I had the invaluable experience of working with CSS3, HTML5, JavaScript, and PHP also SQL.

The knowledge and skills I have acquired in front-end and back-end development have significantly enhanced my understanding of web technologies. The practical experience gained through real-world projects has been instrumental in solidifying my theoretical knowledge and improving my problem-solving abilities.

I am especially thankful to my mentor, Mr. Rohit Solanki and the entire development team for their guidance, support, and encouragement. Their insights and constructive feedback have greatly contributed to my professional growth.

This internship has been a crucial step in my career development, and I am deeply appreciative of the chance to contribute to and learn from such a dynamic and innovative environment.

Lastly, I would also like to express my appreciation to CSism Technologies for the invaluable experience and support throughout my internship. The knowledge and experience gained at CSism Technologies have significantly contributed to my professional growth and understanding of web technologies.

Abstract

This report details my 12-week internship at CSISM Technologies, a prominent tech company dedicated to enhancing programming education for students and Software developing company. Under the guidance of CEO Mr. Ashutosh Gahiwal and MENTOR Mr Rohit Solanki, I engaged in a comprehensive learning experience focusing on HTML5, CSS3, JS, SQL and PHP. The internship provided me with hands-on exposure to web development, allowing me to deepen my technical skills and gain a thorough understanding of modern web technologies. The experience also helped me develop my communication and mentoring abilities. This report reflects on the skills acquired, the challenges faced, and the significant impact of CSISM Technologies' innovative educational approach on my professional growth.

Introduction

Company Overview:

The company CSism Technologies began as a freelance venture while its founders completed college .

In 2012, The business officially launched, starting as an institute offering coaching classes.

The institute evolved into a full-fledged software development company.

Technologies Used: HTML, CSS, JavaScript, SQL, & PHP

Founder: Mr. Ashutosh Ghaiwal

Mentor for Internship: Mr. Rohit Solanki

Tagline of Company : “We server with Smile”

Internship Work

Timeline Summary:

During my twelve-week internship, I developed a professional, retail-oriented website for the official Amul outlet, named Amul Shopee. The project began with focusing on the foundational web development technologies such as HTML and CSS and progressively advanced to integrating responsive designs via Bootstrap, adding interactivity with animations, and building backend functionality using PHP with database integration. The site presented Amul's product lineup, facilitated customer inquiries, and provided essential store information. This hands-on project gave me crucial exposure to real-world business requirements, professional web development workflows, and technical problem-solving.

Week 01 Introduction to HTML

- Learned basic HTML syntax and common tags.
- Continued exploring different HTML elements and attributes.
- Practiced creating simple web pages with structured content for the Amul outlet.
- Explored additional tags and completed a mini HTML project.
- Reviewed HTML basics in preparation for CSS learning.

Week 02 Getting Started with CSS

- Started CSS fundamentals: linking CSS files and styling HTML elements.
- Learned selectors, properties, and values.

- Practiced styling various web page components like text, backgrounds, and margins.
- Worked with CSS Flexbox for better layout management.
- Completed a project styling a webpage and reviewed CSS concepts.

Week 03 Forms and Responsive Design with HTML & CSS

- Created and styled a registration/inquiry form for the outlet.
- Implemented HTML5 form validation for improved user input.
- Enhanced form aesthetics using CSS.
- Tested form responsiveness across devices.
- Finalized form project and collected peer feedback.

Week 04 Bootstrap Framework Introduction

- Applied Bootstrap components to prototype the Amul Shopee site.
- Explored the Bootstrap grid system for responsive layouts.
- Integrated navigation bars and footers in the project.
- Customized Bootstrap components to fit Amul branding.
- Completed the initial site layout and prepared for next steps.

Week 05 Advanced Bootstrap Usage

- Deepened understanding of Bootstrap structure and utility classes.
- Used Bootstrap responsive features for spacing and alignment.
- Enhanced website appearance using advanced Bootstrap functions.
- Finalized page layout and design refinement based on peer feedback.

Week 06 Animations and User Interactivity

- Learned and implemented Bootstrap animations and carousel transitions.
- Customized animations to complement the site theme without distraction.
- Tested animations performance and usability.
- Prepared the website for final presentation and peer review.

Week 07 PHP Integration & Responsive Enhancements

- Explored deeper Bootstrap concepts related to responsiveness.
- Created an index page and added a responsive slider using Bootstrap carousel.
- Optimized the slider for mobile devices.
- Designed an About page using Bootstrap components.
- Peer-reviewed PHP components to ensure functioning consistency.

Week 08 Main Sections Development in PHP

- Developed core homepage elements including Header, Hero Section, and Services.
- Created Portfolio and Testimonials sections.
- Built Contact Section with call-to-action elements.
- Finalized page footer and started website functionality testing.

Week 09 Website Finalization and Reviews

- Conducted comprehensive reviews of the website for design and functionality.
- Fixed inconsistencies, especially those affecting mobile responsiveness.
- Documented all formatting and updates within the project.
- Incorporated mentor feedback and completed peer reviews.
- Self-studied project presentation techniques for effective delivery.

Week 10 Database Connectivity and Admin Panel

- Connected web pages to the database to enable dynamic content management.
- Developed an admin panel for managing website content and products.
- Added backup, restore, and full data recovery options.
- Reviewed database linkage and ensured secure, efficient performance.

Week 11 User Experience Improvements and Secondary Project

- Added dynamic “Enquire” buttons that autofill inquiry forms.
- Implemented “Read More” expandable content options in the admin panel.
- Developed a modern slider and UI animations for a supplementary project related to a dressing company.
- Conducted peer review for UI polish and consistency.

Week 12 Final Testing and Project Submission

- Utilized Apax to smooth overall site loading speed.
- Performed detailed final testing and debugging of all projects.
- Ensured consistency and quality across all developed materials.
- Delivered formal presentations and submitted the entire project for evaluation.
- Reflected on the learning experience and potential areas for improvement.

The internship experience enabled me to develop a fully functional, branded Amul outlet website with integrated frontend and backend systems over a structured 12-week timeline. I gained proficiency in HTML, CSS, Bootstrap, PHP, and SQL database management, applied real-world UI/UX principles, and managed project feedback cycles effectively. This hands-on exposure significantly advanced my technical skills, professional discipline, and confidence to handle similar complex projects in the future.

Throughout this 12-week internship, I transitioned from mastering the basics of HTML and CSS to developing full-featured, responsive web applications using Bootstrap and PHP, with SQL-driven data management. I gained hands-on experience in both frontend and backend processes, UI/UX improvement, teamwork, and professional project delivery. The mentorship and iterative feedback I received continuously propelled my understanding and motivation. This internship significantly broadened my practical web development abilities and enthusiasm for tackling complex real-world projects.

Project

After completing my 12-week internship, I was ready to apply my newly acquired knowledge and skills.

Project: The project was to develop a basic **shop website** using **HTML, JS, CSS** (Frontend languages) and **SQL, PHP** (Backend languages).

I have successfully built a basic **shop website** for *Shree Laxmi Amul Shopiee* by gaining full knowledge of each and every part of website development. The site was designed to be neither too simple nor too advanced — just enough to cover the core features needed for a small business. In the future, this foundation can be used to build a more advanced version.

It had features like:

1. **Advanced Database Management**: Admin can edit and delete contact enquiries directly from the frontend instead of the backend.
2. **Owl Carousel**: A smooth image slider that enhances the look and feel of the website.
3. **Bootstrap**: Makes the site responsive and easy to access on any browser or device.
4. **Contact and Enquiry Form**: Allows customers to submit enquiries directly through the website without needing to call.

And many more...

Tools Used

1. Notepad:

HTML, CSS, and JavaScript Development: Used Notepad as an initial tool for writing and editing HTML, CSS, and JavaScript code. It provided a straightforward environment for coding and testing basic functionality.

2. Visual Studio Code (VSCode):

Enhanced Coding Experience: Transitioned to Visual Studio Code for a more robust development environment. Utilized features such as syntax highlighting, code suggestions, and extensions to improve productivity and code quality.

Employed VSCode's integrated tools for color coding and text formatting, which significantly streamlined the development process and improved code readability.

3. Browser:

Testing and Debugging: Used web browsers (such as Chrome, Firefox) for real-time testing and debugging of web pages. Leveraged browser developer tools to inspect elements, test responsiveness, and troubleshoot issues.

4 XAMPP Server:

Local Server Environment- Implemented XAMPP as a local server environment to run and test PHP scripts and manage MySQL databases. This setup facilitated the development of dynamic web applications and the integration of server-side functionalities.

Development Steps

Project Inception and Planning:

- Defined the project's objective: to develop a basic and informative website for Shree Laxmi Amul Shopiee, aimed at showcasing shop details and allowing customer enquiries.
- Outlined the scope of the website including shop introduction, image sliders, contact form, and enquiry handling.
- Identified the target users as local customers seeking information about shop products, timings, and location.

Design and Development:

- Designed the database schema to store user enquiry details submitted through the contact form.
- Used Visual Studio Code to design and develop the website frontend using HTML, CSS, and JavaScript.
- Utilized XAMPP Server for backend development, including PHP scripting and MySQL database integration.

Feature Implementation:

- Applied responsive design techniques using CSS and Bootstrap to ensure compatibility across devices.
- Designed a clean and user-friendly interface with form validations using HTML and JavaScript.
- Integrated Owl Carousel for image sliders to visually enhance the homepage.

Testing and Deployment:

- Conducted cross-browser testing to ensure consistent performance and appearance.
- Used browser developer tools to debug layout issues and optimize responsiveness.
- Ran the website locally using XAMPP (localhost environment), suitable for offline presentation and future deployment readiness.

The website was successfully hosted on ByteHost using a free hosting plan.

A custom domain name was linked to ensure public accessibility and smoother user experience.

Outputs

The image displays two side-by-side screenshots of a website for "Shree Laxmi Amul Shoppee".

Screenshot 1 (Top): Refreshing Beverages

This screenshot shows a promotional banner for "REFRESHING BEVERAGES". It features four glasses filled with different colored beverages (yellow, dark brown, light green, and red) garnished with lemon slices, lime wedges, mint leaves, and a strawberry. A yellow button labeled "Try Now" is visible on the left. The background has a repeating pattern of colorful ice cream cones.

Screenshot 2 (Bottom): Welcome to Shree Laxmi Amul Shoppee

This screenshot shows the homepage. At the top, there's a header with the shop's name and a "Home" button. Below the header, a large banner features the text "Shree Laxmi Amul Shoppee" with a shopping cart icon and a red button labeled "Official Amul Outlet".

The main content area includes a welcome message: "Welcome to Shree Laxmi Amul Shoppee" and a sub-message: "Your One-Stop Destination for Fresh & Authentic Amul Products!". It also states: "We are proud to be an official Amul outlet, bringing you the freshest dairy delights, tasty treats, and daily essentials—straight from the house of Amul." A paragraph below mentions: "Whether you're picking up your favorite butter, sipping on refreshing Amul Kool, or enjoying a scoop of rich Amul ice cream, we've got everything you love—under one roof." A blue button at the bottom says "Learn More About Us".

To the right of the text, there's a promotional image for Amul ice cream featuring various flavors like Triflare and chocolate.

Both screenshots show a Windows taskbar at the bottom with icons for Search, File Explorer, Task View, Edge, Google Chrome, File Manager, and File Explorer. The date and time (27-07-2025, 19:19) are also visible.

The screenshot shows the 'About Us' page of the Shree Laxmi Amul Shoppee website. At the top, there's a navigation bar with links for Home, About (which is highlighted in blue), Products, Gallery, Contact, and Enquiry. Below the navigation is a large image of the 'SHREE LAXMI Amul SHOPPEE' logo, featuring a red cow silhouette above the word 'Amul' in a stylized font. To the right of the logo, under the heading 'About Us', is a section titled 'Our Story'. It contains two paragraphs of text: one about the store's history and another about its mission. A WhatsApp icon is located in the bottom right corner of the page area.

The screenshot shows the 'Products' page of the Shree Laxmi Amul Shoppee website. The top navigation bar includes links for Home, About, Products (which is highlighted in blue), Gallery, Contact, and Enquiry. Below the navigation is a section titled 'Our Products'. A note at the top says, 'Note: All products may not be available at all times. Please check with the store for current stock.' Below this, there are several categories: 'Ice Creams' (selected), 'Butter & Cheese', 'Milk Products', and 'Beverages'. Under 'Ice Creams', there are sub-categories: 'Cups', 'Cones', 'Family Packs', 'Ice Cream Bars', and 'Novelties'. Three product images are displayed: 'Vanilla Ice Cream' (a cup with a yellow swirl, labeled 'Bestseller'), 'Chocolate Ice Cream' (a tub with chocolate chunks), and 'Butterscotch Ice Cream' (a tub with butterscotch pieces). The bottom of the page shows a dark footer bar with various icons and the date '27-07-2025'.

Conclusion

My 12-week internship at CSISM Technologies has been a transformative journey that significantly strengthened my skills in web development. Under the guidance of **Mr. Rohit Solanki** and the support of the development team, I gained hands-on experience with **HTML5, CSS3, JavaScript, PHP, and SQL**.

During this period, I successfully developed a **basic shop website** that included core functionalities such as product display, contact and enquiry forms, and responsive design. This project helped me understand both **frontend and backend development** processes in depth, including **database integration**, form handling, and user interaction.

I worked extensively with **Visual Studio Code** for development and **XAMPP** for local server setup and testing. The project was later **hosted on ByteHost** with a custom **domain name**, allowing real-time access to the website online.

This internship not only improved my technical skills but also boosted my confidence in problem-solving, debugging, and handling real-time deployment tasks. The mentorship, feedback, and exposure I received throughout were incredibly valuable and have left a lasting impact on my career journey.

I am thankful for this opportunity and excited to apply this practical knowledge to future web development projects.

Certification

Date: 3rd September 2025

Ref: Int/112/2025

We are glad to inform you that **Mr. Om Pradip Patil** has successfully completed his internship at **CSism Technologies** from 2nd June 2025 to 2nd September 2025.

During his internship, he was exposed to the various activities in HTML5, CSS3 & PHP

We found his extremely inquisitive and hard working. He was very much interested to learn the functions of our core divisions' and willing to put his best efforts and get into the depth of the subject to understand it better.

His association with us was very faithful and we wish him to all the best in his future endeavors.

For CSism Technologies,

Authorized Signatory
