Final Testing and Project Submission

Activities:

• Optimized site loading speed using Apax and conducted thorough final testing and debugging of all projects.

• Ensured consistency and quality across all materials, formally presented and submitted the completed project for evaluation.

• Deployed the completed project to a live environment, making it accessible to users.

Outcome:

• Improved skills in optimizing site performance, thorough testing, debugging, and delivering polished web projects.

• Gained experience in project deployment, presentation, and maintaining quality consistency across all deliverables.

Review About Company

❑ Glad to work in such a company where all the employees are friendly . Which created a Friendly environment.

❑ Usually follows waterfall model to built any software which is simple to implement and faster.

❑ Company has experienced Designers, testers , both developers (Backend and frontend).

❑ Mainly they had shared there experience with us that can be very useful for us.

Your review

Om Patil

★★★★★ just now [NEW]

The staff is friendly, professional, and easy to collaborate with — they treat clients more like friends. The work environment is supportive and creative, making it a great place to develop any kind of software with confidence

CSism ™
TECHNOLOGIES
ideas. Simply. Managed.

Date: 3rd September 2025   Ref: Int/112/2025

We are glad to inform you that **Mr. Om Pradip Patil** has successfully completed his internship at **CSism Technologies** from 2nd June 2025 to 2nd September 2025.

During his internship, he was exposed to the various activities in HTML5, CSS3 & PHP

We found his extremely inquisitive and hard working. He was very much interested to learn the functions of our core divisions' and willing to put his best efforts and get into the depth of the subject to understand it better.

His association with us was very faithful and we wish him to all the best in his future endeavors.

For CSism Technologies,

Authorized Signatory

Thank You
